Diagnostic Services in BC for Balance and Dizziness Disorders

Please note: Our volunteers are not qualified to recommend anyone and we do not rank health professionals or make endorsements of any kind. Though the contents are accurate to the best of our ability, the BC Balance and Dizziness Disorders Society (BADD) disclaims responsibility for any errors or omissions herein.

Some neurophysiologists and audiologists have post-graduate training in assessing many balance and vestibular disorders. Speak to the individual to see if they have experience with your condition. Test results may be communicated to you at the time of testing or through your physician.

A referral from another specialist is required to book an appointment.

Diagnostic services are offered at several locations in BC:

**Fraser Valley**
